

Rittal Industrial Wallmount Enclosures - Versatile, Rugged, Available-Off-The-Shelf

- Stainless Steel
- Carbon Steel
- Flange Mount Disconnect

Off Our Shelf and Onto Your Wall - In No Time At All

Rittal, the global industrial enclosure leader, is pleased to introduce the industry's most comprehensive line of wallmount enclosures. Available in a variety of configurations, materials, finishes and protection ratings, our wallmount enclosures are ideal for virtually any application. The new Rittal Xpress program offers a wide range of industry-standard sizes available for off-the-shelf delivery.

Individual enclosures within the line comply with NEMA type 12, 3R, 4 and 4x protection ratings and are designed for optimal performance in even the most rugged environments. Available in both FMD and non-FMD versions, our enclosures feature cold-rolled or stainless steel, mounting panels, and a left-hand-hinged door with a screw-driver insert.

More Standard Enclosures - Available Off-The-Shelf

Never before have the industry's best enclosures been offered in such a wide variety of sizes. From 12 to 72 inches high, 12 to 60 inches wide, and 6 to 20 inches deep, Rittal offers more than 120 wallmount enclosures with more than 50 fully stocked and available off-the-shelf. We also have a large line of complimentary accessories ready to accompany your order. We are sure to have the size you need and we can deliver it on the schedule your job demands.

Carbon Steel

Rittal's wallmount carbon steel enclosures set the standard for space utilization and ease of installation. Unibody construction ensures strength and the foamed-in-place gasketing creates a perfect seal. Industry leading textured paint (RAL 7035 light grey) protects the enclosure from even the most rugged environments. Available in single and double door configurations.

Stainless Steel

Rittal uses type 304 or Type 316L stainless steel to meet demands of the harshest industrial environments. Add to this a range of accessories for virtually any application and you have the NEMA 4X enclosure that sets the standard for durability and protection.

Flange Mount Disconnect

Rittal Flange Mount Disconnect wallmounted enclosures are designed with your FMD application in mind. The universal design can mount operator handles from a variety of manufactures. Rittal wallmount FMD enclosures are available in cold rolled as well as 304 and 316L stainless steel.
